

AKWA IBOM ENVIRONMENTAL PROTECTION AND WASTE MANAGEMENT AGENCY (AKSEPWMA)

PROCEDURE FOR REGISTRATION OF WASTE EVACUATION FACILITIES

In pursuance of the Law of Akwa Ibom State of Nigeria - AKSEPWMA Law Cap 51 in registering Waste Evacuation Companies.

A) Basic requirement for the Registration or Renewal of companies engaged in waste evacuation in the Akwa Ibom State.

- Applicants must submit proof of relevant licenses, certifications, or training.
- They must provide details of their equipment, facilities, and safety protocols.
- They are also required to have a documented operational plan that aligns with national environmental standards.
- The applicants must present company registration with CAC
- The intending waste evacuation company will apply to the Chairman, Akwa Ibom State Environmental Protection and Waste Management Agency through the Director, Environmental Health Office (E.H.O) for approval.

B) The Director of E.H.O will direct the inspection of the applicant facility or company to ensure that there is a standard office accommodation, a store PPES, sanitary conveniences, work equipment, personnel, vehicles, properly labelled among others.

- The inspection Team led by the Director of E.H.O will visit and inspect the facility and submit its report/ recommendation to Chairman, Akwa Ibom State Environmental Protection and Waste Management Agency, if satisfied, the Chairman of the Agency approves the registration of the facility.
- At this point, the applicant proceeds to pay the registration fees prescribed by the Agency at any government IGR designated Bank using AKSG pay direct or online <http://quickteller.com/akwaibom> and present the printout to the Agency for the official receipt.

C) The timeframe for registration of Waste Evacuation facilities is usually four (4) weeks from the date of completion of documentation.

Signed:
